NOTES:

1. This is a draft version of N12. Since the final version of N12 will be in a CATI format, we are using this draft version for development. Skip pattern may need refinements..
2. We have tried to maintain the same question numbers as N10. Where new items have been inserted, they will have a code like BN instead of B to indicate these are new variables. In addition, BC or BNC would be a variable in the B series that has been changed in some way. This version of the questionnaire is not always in alphabetic and numeric order because of rearranging some sections and moving some items.

It will take just a minute to see who in your household is eligible to participate.

Hello, my name is \_\_\_\_\_. I am calling as a part of a research study funded by the National Institutes of Health. My computer has randomly selected you from among the adult members of your household to participate in this study, we cannot substitute any other person.

**YOURTHE1:**

Participation in the study involves answering questions about health related issues such as the experience of injuries, violence, and some background questions such as your age and marital status. We are also interested in your attitudes, opinions and use of alcohol and drugs even if you do not drink alcoholic beverages or use drugs. Your participation provides important information for treatment and policy on health-related issues. Participation is voluntary. If any questions make you uncomfortable just tell me and we can move on to the next one; you can postpone or end the interview at any time.

All of your answers to questions will be confidential. Your answers will be grouped with those of all the other participants. Any answers given cannot be linked with any personal identifying information. The survey takes about 20-45 minutes. Portions of this call may be monitored and recorded for quality control purposes.

[if needed] If you have any questions, I can provide a telephone number for you to call to get more information. [if needed] You can verify the legitimacy of the study and learn more information at [www.nationalstudy12.org](http://www.nationalstudy12.org).
