NOTE:

We have tried to maintain the same question numbers as N10. Where new items have been inserted, they will have a code like BN instead of B to indicate these are new variables. In addition, BC or BNC would be a variable in the B series that has been changed in some way. This version of the questionnaire is not always in alphabetic and numeric order because of rearranging some sections and moving some items.

Script for voicemail: CATI DISPLAY ON 2nd and 4th ATTEMPT:
