ON THE 1ST AND 4TH ATTEMPT RESULTING IN AN ANSWERING MACHINE DISPOSITION DISPLAY:

I am calling about a survey funded by the National Institutes of Health. Your participation is important to us. Please call us to complete the survey at 844-403-3936.

ON THE 1ST AND 4TH ATTEMPT RESULTING IN AN ANSWERING MACHINE DISPOSITION DISPLAY:

National Institutes of Health Survey

HELPLINE FAQs

1) *Mental health hotline*

If you or someone you know would like to talk about a mental health issue, an alcohol-related issue or to find out about treatment programs in your area, you can call 1-800-662-HELP (which is 1-800-662-4357).

2) *Sexual violence hotline*

If you or someone you know would like to talk to a trained counselor about sexual violence, please call 1-800-656-HOPE (4673). Would you like me to repeat this number?"

3) *Child abuse hotline*

To speak to a trained counselor about child abuse, please call 1-800-4-A-CHILD (1-800-422-4453). Would you like me to repeat this number?"

4) *Domestic violence hotline*

To speak to a trained counselor about domestic violence, please call 1-800-799-SAFE (7233). Would you like me to repeat this number?"

5) *How did you get my phone number? It's unlisted.*

The computer dials telephone numbers at random, after we provide the area code and the first 3 digits of the area in the country we are trying to reach. The computer then dials the last four digits at random. We get all kinds of numbers: fire stations, real estate offices, pay phones, etc. The computer can dial an unlisted number as a matter of pure chance. The study is confidential.

6) *I don't know anything about that.*

This isn't a test. We only want to ask about health and health practices that affect your health. Many people find the survey to be interesting.

7) *Why should I participate?*

This data will be used to improve health programs and prevent diseases. Participating is one way for you to be represented at the state and federal level. The information is used for planning purposes at all levels of government to develop more effective health programs.

For one thing, this has to do with how lawmakers spend taxpayer dollars, and putting resources into programs that benefit the most people and do the most good.

The more people we have participating the more accurate the results will be. When you don't participate, it leaves a "hole" in the data.

8) *Why do you need to know how many adults live in the household?*

Our survey protocols require that we select one adult from your household. We ask for the number of men and the number of women, and then the computer randomly selects one person. That way we can be sure that the study represents men, women, young, old, healthy, in poor health, etc.

9) *I don't do surveys over the phone. Put it in the mail.*

We can only conduct this survey over the phone. After years of experience conducting these surveys, the Public Health Institute believes that this is the most efficient, representative, and thorough method of gathering this information. Many people like you have participated in this survey, and many find it interesting. You can refuse to answer specific questions.

10) *Respondent is concerned about confidentiality*

The Alcohol Harm to Others Survey contains sensitive questions and information. It is natural and understandable that respondents will question where the data is going and how it will be used. When a respondent asks questions about confidentiality, be prepared with an explanation. Take enough time; don't rush the explanation. Mention these points:

- No information that can identify you is ever used in a A-H-T-O report, or given to anyone.
- The data is only reported in aggregate, or group, form.
- Any identifying information, such as a telephone number, is separated from your responses once the data have been collected and compiled.
- As an interviewer, you have signed a confidentiality agreement as a condition of employment, and are not allowed to discuss this study or any study with anyone outside the call-room and outside of work-related conversations.

11) *I don't have time for a 30-40 minute survey*

I understand you may not have time to complete the survey at this time. You can start the survey now and finish it at another time that is convenient for you.

We can begin now and you can let me know when you have to go. We can then finish it at a later time.

For cell: I understand you are concerned about the cost of minutes. If you have free weekend or evening minutes, we can schedule a callback for that time. You can complete the survey in segments, if you don't have enough time to complete it at once.

Incentivize: You will receive a /IF STRATA=1 INSERT "\$10" IF STRATA=2-4 INSERT "\$20/ Amazon.com gift code for completing the survey.

12) *Types of Health Insurance – A23*

Medicaid refers to a medical assistance program that provides health care coverage to low income and disabled persons. Most states refer to Medicaid as Medical Assistance. Here is a list of Medicare program names by state.

- LIST OF MEDICARE PROGRAM NAMES:
- Alabama = Patient 1st, MLIF, or SOBRA
- Arizona = AHCCCS (pronounced "Access") or Arizona Health Care Cost Containment System
- California = Medi-Cal
- Connecticut = Connecticut Medical Assistance Program
- Delaware = The Delaware Medical Assistance Program or the Diamond State Health Plan
- District of Columbia = DC Healthy Families
- Hawaii = Hawaii QUEST, QUEST, or Medicaid Fee-For-Service Program
- Indiana = Hoosier Healthwise or Care Select
- Kansas = HealthWave
- Maine = MaineCare
- Maryland = Maryland Medical Assistance
- Massachusetts = MassHealth
- Minnesota = The Medical Assistance Program, MinnesotaCare, or General Assistance Medical Care
- Missouri = MO HealthNet
- New Mexico = Salud!
- North Carolina = North Carolina Medicaid
- Ohio = Ohio Medicaid or Healthy Families
- Oklahoma = SoonerCare
- Oregon = Oregon Health Plan or OHP
- Pennsylvania = Medical Assistance or MA
- Rhode Island = RiteCare
- South Carolina = Healthy Connections
- Tennessee = TennCare
- Wisconsin = BadgerCare Plus
- Wyoming = EqualityCare

/ASK IF ELIG=,1,2

YOURTHE1:

Participation in the study involves answering questions about health related issues such as the experience of injuries or violence, and some background questions such as your age and marital status. We're also interested in your experiences with other people's drinking and your attitudes, opinions and use of alcohol even if you do not drink alcoholic beverages. Your participation provides important information for treatment and policy on health-related issues. Participation is voluntary. If any questions make you uncomfortable just tell me and we can move on to the next one; you can postpone or end the interview at any time with no penalty.

All of your answers to questions will be confidential. Your answers will be grouped with those of all the other participants. Any answers given will not be linked with any personal identifying information. You will receive a /IF STRATA=1, INSERT "\$10" IF STRATA=2-4 INSERT "\$20"/ Amazon.com gift code in compensation for this interview. Portions of this call may be monitored and recorded for quality control purposes.

I would now like to continue with the survey by asking a few questions for background purposes.

[if needed] If you have any questions, I can provide a telephone number for you to call to get more information.

Information Provided Upon Request Only:

For further information about the study, please feel free to contact the Project Manager (Dr. Shelley Osborn at ICF International at 1-415-677-7199).

Project related information can also be obtained from the study directors at the Public Health Institute (Dr. Thomas Greenfield or Dr. Kate Karriker-Jaffe at 1-510-597-3440).

Information about confidentiality and protection of human subjects can be obtained from the Institutional Review Board at the Public Health Institute. For this information, please place a collect call to Debora Pinkas (510-285-5500) between 9am and 5pm Pacific time.

[if needed] You can verify the legitimacy of the study and learn more about it at www.AHTO.org.

ASK OF ALL

+WHOBintro The next group of questions asks about your life as a whole, using a scale from zero to 10. Zero means you feel completely dissatisfied. 10 means you feel completely satisfied. And 5 means you feel neutral - neither satisfied nor dissatisfied.

CLARIFY AS NECESSARY: There are no right or wrong answers...just think about your life as a whole.

Would you like me to go over this again for you? EXPLAIN SCALE AGAIN AS NECESSARY

RECONTTMR

Y1. We're at the end of the interview. We may wish to talk to you again in the future to ask more questions about attitudes and opinions about alcohol, whether you drink alcoholic beverages or not. To find you then, we'll need some locating information. I also want to assure you that this information will be kept completely confidential in secure and protected data files, and will be separate from the responses you've already provided in the interview. Even if you agree now, you may choose not to participate if you are contacted in the future.

01--Respondent agrees – continue
 02--Respondent does not agree to provide this information.
