

Pamela J. Trangenstein, Ph.D., M.P.H.

Public Health Institute
Alcohol Research Group
6001 Shellmound St. #450
Emeryville, CA 94608

EDUCATION

- Ph.D.** 2018 **Johns Hopkins Bloomberg School of Public Health**, Baltimore, MD
Department: Health, Behavior & Society
- M.P.H.** 2014 **Johns Hopkins Bloomberg School of Public Health**, Baltimore, MD
Department: Mental Health
- B.A.** 2005 **Washington University in St. Louis**, St. Louis, MO
Major: Psychology
Minors: Drawing/printmaking and photography

PROFESSIONAL EXPERIENCE

- 2021 to present **Adjunct Assistant Professor**
Department of Health Behavior, University of North Carolina at Chapel Hill
Gillings School of Global Public Health
- 2021 to present **Scientist**
Alcohol Research Group, Public Health Institute
- 2021 **Core Faculty**
Injury Research and Prevention Center, University of North Carolina at
Chapel Hill Gillings School of Global Public Health
- 2019 to 2021 **Assistant Professor**
Department of Health Behavior, University of North Carolina at Chapel Hill
Gillings School of Global Public Health
- 2018 to 2019 **Postdoctoral Fellow**
University of California Berkeley School of Public Health
- 2018 to 2019 **Postdoctoral Research Associate**
Department of Health Law, Policy & Management, Boston University
School of Public Health
- 2018 to 2019 **Associate Scientist**
Alcohol Research Group, Public Health Institute
- 2015 to 2018 **Predoctoral Fellow**
Center on Alcohol Marketing and Youth, Johns Hopkins Bloomberg
School of Public Health
- 2011 to 2015 **Study Manager**
Westat, Rockville, MD

Pamela Trangenstein

- 2010 to 2011 **Senior Research Associate**
Synergy Enterprises, Inc., Silver Spring, MD
- 2009 to 2010 **Research Assistant**
Department of Psychiatry, University of North Carolina at Chapel Hill
School of Medicine
- 2008 to 2009 **Professional Rater II**
Epidemiology Prevention & Research Group, Washington University
School of Medicine
- 2005 to 2008 **Research Assistant**
Windwalker Corporation, McLean, VA

HONORS AND AWARDS

- 2019 Finalist, 2018 NIH Director's Early Independence Award
- 2018 Ole Jørgen Skog Award for Early Career Scientists, Kettil Bruun Society for
Social and Epidemiological Research on Alcohol
- 2017 Finalist, Presidential Management Fellows, US Office of Personnel Management
- 2016 Gordis Teaching Fellowship, JHSPH
- 2015 Health, Behavior & Society Scholarship, JHSPH
- 2011 Dean's Scholarship, JHSPH

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

- 2017 to present Kettil Bruun Society for Social and Epidemiological Research on Alcohol
- 2016 to present American Public Health Association

TEACHING & MENTORSHIP

*online course

Instructor

“From Data to Action: Methods to Link Science and Policy;” UNC Gillings School of Global Public Health. Spring 2021 (13 students*)

“Alcohol and Social Disparities: A Public Health Perspective;” Johns Hopkins University School of Public Health Studies. Fall 2017 (17 students)

Teaching assistant

“Translating Research into Public Health Programs II;” Johns Hopkins Bloomberg School of Public Health. Instructors: Holtgrave, D & Weir, B. 2017 (29 students)

“Media Advocacy in Public Health: Theory and Practice;” Johns Hopkins Bloomberg School of Public Health. Instructor: Jernigan, DH. 2017 (19 students)

“Introduction to Campaigning and Organizing for Public Health;” Johns Hopkins Bloomberg School of Public Health. Instructors: Jernigan, DH & Hines, A. Summer 2017 (40 students*), 3rd term 2017 (17 students*)

Pamela Trangenstein

“Alcohol, Society and Health;” Johns Hopkins Bloomberg School of Public Health. Instructor:
Jernigan, DH. 2016 (23 students) & 2017 (22 students)

Guest lectures

- “A multi-level approach to alcohol prevention;” Development and Evaluation of Health Behavior Interventions; University of North Carolina at Chapel Hill, 2022*
- “Designing research for media advocacy;” Media Advocacy in Public Health: Theory and Practice; Johns Hopkins Bloomberg School of Public Health, 2021*
- “Political determinants of health;” Multicultural Health, American University, 2021*
- “Epidemiology of alcohol use and related harms;” The Epidemiology of Substance Use and Related Problems, Johns Hopkins Bloomberg School of Public Health, 2017-2020*
- “Excessive alcohol use and individual-level interventions;” Clinical and Public Health Behavior Change, Johns Hopkins University, 2017, 2018
- “Epidemiology and prevention of college drinking;” Introduction to Health Promotion, American University, 2016

GRANTS & CONTRACTS

Grant applications in preparation

- Co-Investigator, “Increasing spirits use and alcohol-related mortality in the US: Analyses of mortality rate trends, age-period-cohort decomposition, policy influences and relationships with beverage-specific per capita consumption,” NIAAA R01 PI Kerr, June 2023
- Co-Investigator, “Understanding the policy and placed-based determinants of alcohol-linked suicide among mid-life adults: a multilevel study,” NIA R01, PI Kaplan, July 2023
- Co- Investigator, “Intervening on alcohol outlet density to address structural racism,” NIAAA R01, MPI Wolfson, July 2023
- Principal Investigator, “A longitudinal cohort study of adolescent and young adult cannabis marketing exposure and use in Washington and Wisconsin,” NIDA R01, October 2023
- Multiple Principal Investigator, “Community retail alcohol availability and cancer,” NCI R01, MPI Jernigan November 2023

Funded grants, contracts, and other research

Scientist, “Alcohol and pregnancy: benefits and harms of state-level policies,” NIAAA R01 AA023267, NIH 05/15/2015-02/28/2026

Pregnancy-specific policies have been shown to lead to worse birth outcomes, but little is known about policies for the general population. This study tests whether general state-level policies are associated with birth outcomes.

Analyst, “National Alcohol Beverage Control Association Contract with Alcohol Research Group: Three projects,” NABCA, 07/01/2022 – 06/30/2023

There are many lesser-known benefits of state alcohol monopolies, such as reduced point-of-sale advertising, higher underage sales compliance, and easy-to-anticipate pricing for the industry. This project seeks to document and, when possible, quantify these benefits.

Co-Investigator and Sub-Contract Principal Investigator, “Harms from others’ drinking among college youth,” NIAAA R01 AA025980, NIH, 09/20/2018-06/30/2022 \$2,138,777 (Total costs).

This study conducts the first nationally representative data on the prevalence of alcohol’s harms to others on college campuses in the United States in over a decade.

Pamela Trangenstein

Analyst, “Impacts of Recreational Marijuana Legalization and Retail Outlets in Washington,” NIDA R01 DA048526-01, NIH, 04/01/19 – 03/31/23

This study tests whether non-medical cannabis dispensary density is associated with cannabis use, alcohol and cannabis co-use, cannabis-related harms, and premature mortality.

Analyst, “Tobacco retail policy innovation to reduce health disparities,” NCI R01 CA229238, NIH, 09/16/2019 – 08/31/2023

This study measures how accessibility to tobacco retailers and consequences of tobacco use would change if tobacco products if there was a government monopoly on tobacco (i.e., tobacco was only sold in state-run stores) vs. the current status quo.

Scientist, “National Alcohol Beverage Control Association Contract with Alcohol Research Group: Three projects,” NABCA, 07/01/2021 – 06/30/2022

Geospatial data on alcohol’s retail availability is often limited to select cities. This project will map alcohol outlet density and potential consequences of high concentrations of alcohol retailers (e.g., traffic crash deaths, homicides) in the 17 control states.

Completed research

*Funding for which I authored the application.

*Principal Investigator, “Evaluation of alcohol sales at collegiate stadiums in North Carolina,” Addiction Professionals of North Carolina, \$27,256 (Total costs).

This study aims to evaluate the new policy allowing alcohol sales during collegiate sporting events at public universities using data for six NCAA Divisions I schools.

Co-Investigator and Sub-Contract Principal Investigator, Marijuana ads in traditional and social media: Influence and policy implications, NIDA R01 DA041641, 07/01/2018 – 06/30/2020, Moreno (PI)

This project included a survey, a content analysis, and concept mapping to understand how non-medical cannabis marketing affects adolescents.

*Co-Investigator, “Interactive liquor licensing decision optimization tool,” National Alcohol Beverage Control Association, 04/01/2019-08/30/2019, Kerr (PI), \$50,000 (Total costs).

This feasibility study built a simulation model to prospectively inform policy decisions by allowing users to alter the alcohol environment and see the expected changes in public health outcomes in real time.

Post-Doctoral Fellow, “Graduate research training in alcohol problems: Alcohol-Related Disparities,” NIAAA T32 AA007240, 07/01/18-06/30/19, Zemore (PI)

This training program provides research training in critical areas of alcohol studies for scholars and professionals with research backgrounds in public health, psychology, sociology, and other social sciences.

Pamela Trangenstein

Associate Scientist, “Alcohol’s harms to others among US Adults: Individual and contextual effects,” NIAAA R01 AA022791, 08/01/2018-06/30/2019, Greenfield & Karriker-Jaffe (MPI)

This survey project assesses the types and seriousness of harms from others’ drinking in the US national adult population. It applies new metrics including detriments to quality of life, mental health, and other costs, to gauge the severity of these second-hand impacts of alcohol.

Pre-Doctoral Fellow, “Center on Alcohol Marketing and Youth (CAMY),” CDC U48DP005045, 09/01/2015-05/08/2018, Jernigan & Leaf (MPI)

CAMY was located at the Johns Hopkins Bloomberg School of Public Health. It monitored the alcohol industry’s marketing practices to focus attention and action on industry practices that jeopardize America’s youth’s health and safety. In addition, CAMY’s fellowship program supports pre- and post-doctoral fellows in best practices for alcohol epidemiology.

*Principal Investigator, “Treatment availability and alcohol-related harms to others” NIAAA F31, \$161,888 (Total costs)

NOTE: Funding awarded but not received due to administrative delays

This training award was designed to be one of the first to systematically explore an environmental determinant of alcohol’s harms to others: treatment accessibility.

*Student Investigator, “Global Health Established Field Placement Award” Johns Hopkins Bloomberg School of Public Health, 06/2016-08/2016, Jernigan & Parry (MPI), \$3,200 (Total costs)

*Student Investigator, “Doctoral Special Project Funding” JHSPH, 06/2016-08/2016, Jernigan & Parry (MPI), \$3,800 (Total costs)

These awards provided funding for two months of in-country training in Cape Town, South Africa to assist with the development of a Green Paper (draft policy) and analysis of data from the South African arm of the International Alcohol Control Study.
